S.N. 10/666,873

Art Unit: 1745

March 7, 2007

Detailed Action

1. The Applicant's amendment filed on January 2, 2007 was received. Claims 39,79 were amended.
2. The text of those sections of Title 35, U.S.C. code not included in this action can be found in the prior Office Action issued on November 14, 2006.

Double Patenting

3. Provisional claim rejection under 35 U.S.C. 101 as claiming the same invention as that of claims 20-28,67,78-83 of copending Application No. 10/666,860 on claims 39-41,71-80 are maintained. This is a provisional double patenting rejection since the conflicting claims have not in fact been patented.

Response to Arguments

4. Applicant's arguments filed on January 3, 2007 have been fully considered but they are not persuasive.

Applicant's principal arguments are

(a) The recitation "a portion of a first electrode strip is positioned between the mandrel and the pin" in claim 39 of the instant disclosure is not required in the copending Application No. 10/666,860;

(b) independent claim 20 of copending Application No. 10/666,860 requires "connecting a first end of a first electrode strip to a pin" is not recited in the instant disclosure.

In response to Applicant's arguments, please consider the following comments.

(a) the limitation "a portion of a first electrode strip is positioned between the mandrel and the pin" is recited in claim 81 of the *copending Application No. 10/666,873*;

(b) in fact, the limitation "connecting of a first end of a first electrode strip to a pin" in claim 20 of the copending Application No. 10/666,860 is similarly recited in claim 79 of the instant disclosure. See amendment filed January 2, 2007.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

Art Unit: 1745

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
